

## KEY FEATURES

- Container Transit
- Container Management
- Container Status Reports
- Container Optimization
- Estimated & Actual Processing Dates
- In-Transit Container Statuses
- Planned & Actual Landed Costs
- Container Receiving with Achieve WMS
- Container Allocations with Achieve WMS

ACHIEVE CONTAINER MANAGEMENT PROVIDES THE FEATURES NECESSARY TO TRACK WHAT INVENTORY IS IN WHICH CONTAINERS, WHERE THE CONTAINER IS IN TRANSIT, AND ALL OF THE ASSOCIATED LANDED COSTS.

Achieve Container Management is an innovative solution for SAP Business One, that provides manufacturers, distributors and third-party logistics providers, visibility and control of the inbound containers and inventory. Achieve Container Management provides importers with the ability to

track the contents of containers, the estimated dates of shipment, arrival at port, customs clearance and arrival at your warehouses, including; the actual dates when these events occur.

With Achieve Container Management, you can link files and documents to a shipment to easily track scanned copies of shipping documents, spreadsheets, certifications or graphics. You may view or print the documents directly from the Container Tracking screen.

As with all Achieve One modules, the Achieve Container Management is built specifically for SAP Business One, utilizing the advanced technical architecture of the SAP Business One Software Development Kit.

### Packing Items

Shipment No.	10	Space Remaining	2,495.610
Container Type	40' High Cube	Percent Full	24.000
Container Serial No.	13	Container Volume	0.000
Tracking No.	39912993k	Container Weight	0.000
Seal No.	203silkd599		
Vendor ASN No.	93990
