DOES YOUR COMPANY BUY AND SELL PRODUCTS THAT COME IN A VARIETY OF STYLES, SIZES AND COLORS? DO YOUR CUSTOMER SERVICE REPS NEED TO ENTER ORDERS QUICKLY, WHILE ON THE PHONE?

Achieve Style provides a quicker, easier way to enter items on sales and purchasing documents by means of a style grid. Each part number and color

can be entered on a single line, with all of the required sizes. Operators can quickly quote prices, recap the order, verify quantities and check to see if all items are available for shipment – all from a single screen. The order is then transferred into standard SAP Business One sales order document with the click of a button.

As with all Achieve One modules, Achieve Style is built specifically for SAP Business One, utilizing the advanced technical architecture of the SAP Business One Software Development Kit.
